

POSTGRADUATE CERTIFICATE IN ECONOMIC DIPLOMACY

YOUR CAREER IN DIPLOMACY STARTS HERE!

Do you want a career in diplomacy, especially economic diplomacy, or do you want to further professionalise your existing career? Are you looking to start preparing for the diplomatic service exams? If so, then the Postgraduate in Economic Diplomacy is exactly what you are looking for.

[This programme](#) produces graduates with knowledge and understanding of the legal and business aspects of economic diplomacy gained through a combination of academic and practitioner-led courses, complemented by a series of skills and thematic workshops.

AFTER GRADUATION

There are various job opportunities open to graduates from this programme: in the civil service, governmental bodies, trade and investment promotion agencies, international organisations and NGOs.

Due to the international business courses, graduates may also move into international business development (import, export, international investment) as well as the banking sector, for example in international trade finance and international investment finance departments, as well as corporate relations.

The combination of public and diplomatic subjects together with relevant courses on private sector trade and investment provide graduates with a rare breadth of expertise.

Alumni have gone on to work in a range of roles at a variety of places including embassies, NGOs, an environmental service provider, law firms and private companies.

"I will remember my experience as a student of Economic Diplomacy at the Brussels Diplomatic Academy as one of the most formative of my life.

The choice of classes is very broad, and it is an asset indeed, as it provides students with the capacity of understanding both the needs of private and public institutions. This is a quality that makes your profile stand out and brings an interesting (and quite rare) differentiation to your resume. I can confidently say this as a young professional who got a full-time contract in a Belgian leading company after completing there the academic internship provided by BDA."
